On the 27th of February 2014, Eurofins Product Testing A/S received samples of 1 printed vinyl wall paper and 1 unprinted vinyl wall paper as a reference with the names:

Unprinted Vinyl Wall Paper

Mimaki LX-101 Latex ink printed wallpaper: Cyan Magenta Yellow Black Orange Green & White

The printed and the unprinted wall papers were supplied by MIMAKI Europe BV for being representative for a typical final wall paper product.

One sample of wall paper was printed with a combination of the inks Magenta/Yellow/Black/Orange/Green/White using the printing machine Mimaki LX-101 supplied and used by MIMAKI Europe BV.

The other sample of wall paper was left unprinted and used as a reference to verify the contribution of VOC emissions by the inks.

Sampling, testing and evaluation were performed according to ISO 16000-3, ISO 16000-6, ISO 16000-9, ISO 16000-11, CEN/TS 16516 and DIBt test methods in the latest versions, see the test reports no. 392-2014-00035401 and no.392-2014-00034501rev.

FINDINGS:

The test results of the tested wall papers indicate that the contribution of the inks to the total VOC emissions of the printed wall paper is neglectable as shown in the reports no. 392-2014-00035401 and no. 392-2014-00034501rev.

The inks are VOC emission tested and meets the requirements of:

Germany

- AgBB (June 2012).

France

- *CMR substances* (DEVP0908633A of 30 April 2009 and DEVP0910046A of 28 May 2009).
- *VOC emission classification* - emission class A+ (DEVL1101903D of 23 March 2011 and DEVL1104875A of April 19 2011).

Belgium

- Draft Royal Decree of Nov. 2012 establishing threshold levels for the emissions to the indoor environment from construction products for certain intended uses (notified to EU with # 2012/0568/B).

15th of April 2014
